During 1953, an ore-processing plant is to be built near Gyongyosoroszi  
 (Heves Megye) at the mines in the valley of the Matra Mountains.

The plant will receive its water supply from a large dam which is to ex-

Five workers' houses, the office buildings, and the 75-meter-long culture  
 house are under construction at present. Excavation work for the dam is also
